

QuestionMarkTM
Surveying and testing software

This demo disk will show you how to...

Question Mark™ is a software program that allows you to use a computer to write,

deliver and analyze tests, surveys and study guides. You enter your questions into any computer (PC or Mac) and individuals answer them on-line using the same computer or others at a distance. Then Question Mark™ marks and analyzes the answers for you with full confidentiality.

Presence Corporation provides distribution and support services for vertical market technologies used in education, training, banking and other fields. We provide an electronic front door to facilitate our customer support services. These include toll-free "800" access to real people and fax communication, an electronic bulletin board, voice mail and electronic mail.

Presence

CORPORATION

Clients have access to a wide range of talents, both in-house and through our business partners. Our sales and technical support staff have in-depth knowledge of our products and provide complete back-up services to clients as well as expert guidance in software selection and installation.

Telephone support, customization, programming, installation and other services combine to provide clients with complete care from product selection to installation and implementation.

Presence has clients from a wide range of industries and the world of education. These include banking, manufacturing, insurance, accounting, health care, primary and secondary schools, colleges and universities. Our customers are using Question Mark™ for a variety of applications including conventional tests and study guides, sales team evaluations, government skill standards exams, employee attitude surveys, preliminary job interviews, product knowledge surveys and on-the-job training. They include:

- A major bank which uses Question Mark™ to test trainees at the end of a distance learning course
- A university where language students use Question Mark™ for study guides as well as formal tests
- Power stations where Question Mark™ tests ensure that staff understand safety procedures
- A large health insurance company whose Human Resources department uses Question Mark™ for questionnaires in connection with exit interviews.
